SUMMARY

Trader focused on global markets across asset classes, trading higher timeframes and continuously backtesting strategies to learn why they succeed or fail. Builds and runs agentic AI systems and automation — including a live crypto trading bot and a personal AI agent stack (Hermes) — to automate daily workflows and research. BCom (Honours) student at Christ University, Bangalore.

SKILLS

Trading & Markets

Technical Analysis, Backtesting, System Development, TradingView Pine Script

AI & Agents

LLMs / Prompt Engineering, AI Agent Frameworks, Workflow Automation, Whisper / STT, Hermes Agent, Make.com, n8n, Cline Coder, Micro Apps

Tech Stack

Python, Git / GitHub, Cloudflare, APIs, Vibe Coding, Web Development

Data

Power BI, Excel, Bloomberg Terminal, SQL Database

Media

DaVinci Resolve, Adobe Premiere Pro, Adobe After Effects, Photoshop, Canva, Gamma AI

PROJECTS

Trading Bot

Python · Binance API · Custom Moving High+Low Indicator

- Built a fully autonomous crypto trading bot that scans the market continuously on the 1-hour timeframe and takes trades when the system generates a signal.
- Bot independently manages entries, stop-losses, take-profit, and margin, with automated Telegram alerts when margin is low or liquidation risk is close.
- Currently trades Bitcoin and Ethereum; other cryptocurrencies are excluded due to current liquidity issues.

Hermes Agent — Personal AI Infrastructure

AI Agents · Hermes Framework · Automation · Whisper STT · Cron · Multi-platform

- Built a fully customized AI agent on Nous Research's Hermes framework, acting as the central nervous system for daily operations with persistent cross-session memory.
- Set up scheduled cron jobs for daily market briefings and pre-market analysis, delivered through a multi-platform gateway (Telegram + Discord) with voice-to-voice capability.
- Built a pre-market briefing pipeline that fetches analysis videos, transcribes them via Whisper, and delivers formatted summaries without manual intervention.

CERTIFICATIONS

- Microsoft Power BI Desktop for Business Intelligence — Udemy
- Bloomberg Finance Fundamentals
- Bloomberg Market Concepts
- Microsoft Excel — From Beginner To Expert — Udemy
- AI Tools Workshop — BE10X
- NISM-Series-XV: Research Analyst (Enrollment: 2610148706)

EDUCATION

Bachelor of Commerce (Honours)

Christ University, Bangalore · 2023 – 2027
